

STATEMENT OF WORK
Waste Recycling (633)
Florida

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables

1. Design documents that demonstrate criteria in Florida NRCS conservation practice standard Waste Recycling, Code 633 have been met and are compatible with other planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan
 - b. List of required permits to be obtained by the client
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Results of applicable sampling, analyses and tests provided by the client
 - ii. Location of planned waste recycling site(s)
 - iii. Additional requirements applicable to manure or organic materials, non-point source pollution, soil condition, and air quality
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to implement the waste recycling in accordance with Code 633 and to obtain necessary permits
3. Operation and maintenance plan
4. Certification that the plan and design for recycling of wastes meets applicable conservation practice standard criteria and comply with applicable laws and regulations

INSTALLATION

Deliverables

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Staking and layout according to plans and specifications including applicable layout notes
4. Application guidance as needed
5. Facilitate and implement required design modifications with client and original designer
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
7. Design modifications during implementation as required
8. Certification that the application process and materials meet design and permit requirements

CHECK OUT

Deliverables

1. Records of waste recycling
 - a. Date, extent, and location of waste applied
 - b. Method of recycling waste
 - c. Condition and type of waste recycled
 - d. Test results of waste recycled
2. Certification that the application meets Florida NRCS standards and specifications and is in compliance with applicable permits
3. Progress reporting
