

Operation and Maintenance Plan
Dam, Diversion, Code 348

Landowner/Operator: _____ Date: _____

NRCS Service Center: _____ Conservation District: _____

Location of Practice: Lat: _____ Long: _____

UTM Coordinates: _____

SEC: _____ TS: _____ R: _____ Field ID: _____

GENERAL

A properly operated and maintained dam, diversion structure can serve the intended purpose for several years. This dam, diversion was designed and installed to divert water from a stream or waterway to be used beneficially or to divert damaging flows from one watercourse to another. The estimated life span of this installation is at least 15 years and can be assured and possibly increased by performing the required operation and maintenance (O&M) activities listed below.

O&M REQUIREMENTS

- Conduct periodic and post-storm inspections to detect and minimize damages to the structure.
- Removal of accumulated trash and debris from the structure,
- Repair of gates, screens, and other appurtenances,
- Repair of any erosion around or downstream of the structure.
- Replace any rusted metal or deteriorated concrete.

Additional Operation and Maintenance Requirements Specific to this Plan: _____
