[NATIONAL ENGINEERING MANUAL](#) (THIRD ED.)
210-V-AMENDMENT AL02

Purpose: To issue the Alabama supplements to the revised National Engineering Manual (eDirectives, Manuals, 210).

The following parts and subparts have been supplemented:

[AL501.1](#) – Scope

B.3) Non-NRCS employees who are not Federal employees and not licensed to practice engineering in the State.

[AL501.5](#) – Engineering Job Review

A. (3) (i) – Class IV. As determined by the SCE – *“Field staff are encouraged to have design review of Class I-V jobs by employees with adequate engineering approval authority.”*

[AL503.56](#) – Responsibility for Dams

(9) – Changed Class of dams to be consistent with the Data Dictionary
Low (L), Significant (S), and High (H)

[AL503.59](#) – Exhibit 1 – Alabama NRCS Dam Safety 5-year Inspection Schedule

Changed schedule to the area of responsibility instead of the name of the resource engineer.

[AL511.3](#) – Operating Procedures – Review this entire section. Several changes have been made to this section.

[AL520.1](#) – [Minimizing Erosion and Pollution During Construction](#)

Notice of Registration (NOR) – Tier 1 waterbody segments, *“as defined by the Alabama Department of Environmental Management,”*

[Part 520.1 H. Minimizing Erosion and Pollution During Construction](#)

ADDED Exhibit 2. Field Level Agreement between the US Army Corps of Engineers, Mobile and Nashville Districts, and the Natural Resources Conservation Service Concerning Farm Pond Exemptions in Alabama.

[Part 521 – Pollution Abatement and Water Quality Improvement](#)

521.1 – Pollution Abatement in Conservation Operations

[Part 529 – Pollution Abatement and Air Quality Improvement](#)

529.0 – A. General

If the office maintains a hard copy of the NEM, print this supplement on green paper and file accordingly. The Alabama supplements to the NEM are maintained on the eFOTG, Section I, F. Engineering References.

A handwritten signature in black ink that reads "Perry L. Oakes".
