ALABAMA TECHNICAL GUIDE NOTICE 22.

This notice transmits revisions to the FOTG.

SECTION IV - STANDARDS AND SPECIFICATIONS

INDEX

Add the following standards:

Solid/Liquid Waste Separation Facility - Code 632
Waste Treatment - Code 629
Wastewater Treatment Strip - Code 635
Well Water Testing - Code 355

DESCRIPTION OF CHANGES

Solid/Liquid Waste Separation Facility - Code 632 - New standard developed to provide criteria for the selection and use of solid/liquid separation equipment as a component of an agricultural waste management system.

Waste Treatment - Code 629 - New standard developed to provide criteria for the selection and use of waste treatment facilities and processes as a component of an agricultural waste management system.

Wastewater Treatment Strip - Code 635 - New standard developed to provide criteria for the selection and use of a strip or area of herbaceous vegetation for the treatment of agricultural wastewater and runoff as a component of an agricultural waste management system.

Well Water Testing - Code 355 - New standard developed to provide criteria for testing the physical, biological, and chemical characteristics of well water to meet its intended use.

FILING INSTRUCTIONS

File the following new standards, dated October 2006, with the current standards:

Solid/Liquid Waste Separation Facility - Code 632
Waste Treatment - Code 629
Wastewater Treatment Strip - Code 635
Well Water Testing - Code 355
