ALABAMA TECHNICAL GUIDE NOTICE 40.

This notice transmits revisions to the eFOTG.

SECTION IV eFOTG

CONSERVATION PRACTICE STANDARD INDEX

Spring Development, Code 574 dated April 2010

CONSERVATION PRACTICE STANDARD

Spring Development, Code 574 – Revised Alabama standard to meet the National standard. Updated references. Inserted comment in criteria section to exclude livestock by fencing off spring collection areas that remain wet on the surface after development. Deleted considerations that were in the criteria section of the standard and placed them under the considerations section of the standard.

JOB SHEET INDEX:

Spring Development – Water Supply for Livestock, Job Sheet No. AL574

JOB SHEETS

Spring Development – Water Supply for Livestock, Job Sheet No. AL574 –

Collection System - Changed perforated plastic pipe not less than 4 inches

Spring Box - added statement “The box should be made of a durable material such as concrete, plastic, galvanized steel or naturally rot-resistant wood (e.g. cypress or cedar)”

Operation and Maintenance – added statement “Exclude livestock by fencing off spring collection areas that remain wet on the surface after development.”
