**ALABAMA TECHNICAL GUIDE - SECTION IV FOTG - NOTICE AL57.**

This notice transmits revisions to the eFOTG.

**STANDARDS**

Brush Management – Code 314  
Herbaceous Weed Control – Code 315

The standards were updated to include current contact information for poison control centers.

**GUIDE AND JOB SHEET INDEX**

AL314 – Brush Management  
AL315 - Herbaceous Weed Control – Code AL315

The job sheets standards were updated to include current contact information for poison control centers. The job sheets were also updated to provide mitigation guidance and options for those pesticides that Win-Pst may have identified as having Intermediate (I), High (H), or Extremely High (X) environmental interaction hazards. The mitigations are identified as those most commonly implemented by applicators and are considered to be standard operating procedures by most applicators. The other mitigations are those that are not commonly implemented by may be needed to effectively mitigate the interaction hazards that have been identified by Win-Pst. All of the mitigations identified in the job sheets directly relate to the Pest management Considerations in Conservation Planning Worksheet tool.

**FILING INSTRUCTIONS:** If hard copies are maintained, file the new or revised documents. Archive or discard the outdated material.

A handwritten signature in black ink that reads "Shannon K. Weaver".
