

**NATURAL RESOURCES CONSERVATION SERVICE  
CONSERVATION PRACTICE OPERATION AND MAINTENANCE**

**FILTER STRIP  
(Acre)  
Code 393**

**OPERATION AND MAINTENANCE**

- Maintain original width and length of the filter strip.
- Harvest, mow, reseed, and fertilize as necessary to maintain plant density and vigorous plant growth.
- Inspect after major storms, remove trapped sediment, and repair eroding areas.
- Shut off pesticide sprayers when turning on a filter strip.
