NRCS, AR
April 2007

Conservation practice standards are reviewed periodically, and updated if needed. To obtain the current version of this standard, contact your Natural Resources Conservation Service State Office, or download it from the electronic Field Office Technical Guide for your state.

NATURAL RESOURCES CONSERVATION SERVICE
STATEMENT OF WORK

IRRIGATION SYSTEM, TAILWATER RECOVERY
(no.)
CODE 447

DESIGN

Deliverables:
1. Design documentation that will demonstrate the criteria in the NRCS practice standard has been met and are compatible with other planned and applied practices.
   a. Compliance with NRCS national and state utility safety policy (NEM Part 503 Safety, Engineering Activities Affecting Utilities 503.00 through 503.06).
   b. List of associated eFOTG conservation practices included in the project.
   c. Practice standard criteria substantiating data, computations, and analyses to develop plans and specifications including but not limited to:
      i. Collection
      ii. Storage capacity
      iii. Reuse considerations
      iv. Erosion/seepage control
      v. Tailwater control
      vi. Vegetation
      vii. Hydraulics
      viii. Safety Considerations (NEM Part 503-Safety, Subpart A, 503.06 through 503.12)
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits. Plans shall include but not be limited to:
   Adequate location map, plan view, profiles, cross sections, details, and specifications to ensure that the project can be properly constructed and permits secured.
   a. The design report shall include, but is not limited to the following:
      i. Management assessment.
      ii. Design documentation from item 1 listed above.
   b. The inspection plan must describe the type and frequency of testing, items requiring inspection, the documentation required, and the qualifications of the person doing the work.
4. Operation and maintenance plan.
5. Itemized engineer’s cost estimate.
6. Certification that the design meets practice standard criteria and complies with applicable laws and regulations (NEM Part 505, Non-NRCS Engineering Services, 505.03(b)(2)).

INSTALLATION

Deliverables
1. Documentation of pre-construction conference with client and contractor.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout survey notes.
4. Installation inspection (according to inspection plan).
   a. Materials used.
   b. Inspection records.
   c. Maintaining a job diary with the dates and record of inspections made, testing completed, instruction provided to the contractor, etc., to document compliance with standards and specifications.
5. Facilitate, implement and document required design modifications with client, original designer, permitting and funding agencies.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the installation process and materials meet design and permit requirements.

CHECKOUT

Deliverables
1. Supporting documentation.
2. As-Built drawings
   a. Drawings with changes from the original construction plans clearly shown.
   b. Certification that the installation meets NRCS standards and specifications and is in compliance with permits (NEM Part 505, Non-NRCS Engineering Services, 505.03(c)(1)).
3. Extent of practice units applied and location identified on a map.
   a. Completed job diary noting inspections made, testing completed, etc.
   b. Materials documentation.
   c. Testing reports to determine effectiveness of the amendment.
   d. Survey notes for layout, inspections, and final checkout documenting compliance with standards and specifications.
4. Provide the following information to the NRCS field office servicing the relevant land for entry into the Performance Results System (PRS):
   a. Technical Service Provider Name
   b. Customer name
   c. USDA program funding the practice (if known)
   d. Location of work (state, county, conservation district, land tract identifier)
   e. Land use of field where the practice was installed (cropland, etc.)
   f. NRCS practice name and quantity of practice installed in appropriate units
5. Completion report in accordance with permit requirements.
