

647 – Early Successional Habitat Development / Management

State Grassland Specialist
Planning Unit: Acre
Reporting Unit: Acre

FACT SHEET

October, 2010

PRACTICE DEFINITION

Manage plant succession to develop and maintain early successional habitat to benefit desired wildlife and/or natural communities

PRACTICE PURPOSE

To provide habitat for species requiring early successional habitat for all or part of their life cycle

PRACTICE INFORMATION

This practice applies to all lands that are suitable for the kinds of desired wildlife and plant species.

Management will be designed to achieve the desired plant community structure (e.g., density, vertical and horizontal cover) and plant species diversity.
