**AGRONOMY TECHNICAL NOTE NO. CA- 68
190-VI**

SUBJECT: ECS – Nitrate Groundwater Pollution Hazard Index

Purpose: To transmit the above named Technical Note.

Effective Date: When received.

The Nitrate Groundwater Pollution Hazard Index (HI) can be used when conservation planning on irrigated cropland in areas with groundwater affected by nitrate leaching. This Technical Note should be reviewed before filing.

Filing Instructions. This Technical Note and new Index will be filed electronically in the California eFOTG under the folder hierarchy: Section I, Technical Notes, Agronomy. Field offices may also optionally file hard copies in the three-ring binder with other Agronomy Technical Notes, or in the hard copy of the National Agronomy Manual, located in field offices. Replace the old Index sheets with the new Index at the front of the Technical Notes section of the Manual.

A handwritten signature in cursive script that reads "Diane B. Holcomb".

DIANE B. HOLCOMB
State Resource Conservationist
