**CALIFORNIA TECHNICAL GUIDE
450-VI
TECHNICAL GUIDE NOTICE NO. 56**

SUBJECT: TECHNICAL GUIDE SECTION II - Revised Hydric Soils List for Yolo County, California

Purpose: To transmit the revised Hydric Soils List for Yolo County, California (CA113).

Effective Date: Effective upon receipt.

Background: This list is a revised Hydric Soils List for Yolo County, California. The revisions made in the NASIS (National Soil Information System) database reflect additions of soil map units in order to join soils data with adjoining soil survey areas, minor additions of inclusions to soil map units, revisions to component and/or inclusion percentages in each map unit, updates of landform terminology, and the addition of Altered Hydrology text notes. The format of the Hydric List has changed as a result of the new NASIS soils database system. This hydric soils list meets SSURGO-2 standards and specifications. Consult with the appropriate Area Soil Scientist for assistance in using these lists. The lists will be used until such a time that an update is issued via Technical Guide Notice.

Filing Instructions: The Hydric Soils Lists are to be filed in Section II of the FOTG, and previous lists should be removed.
