**CALIFORNIA TECHNICAL GUIDE
450-VI
TECHNICAL GUIDE NOTICE NO.89**

SUBJECT: TECHNICAL GUIDE SECTION II - Revised Hydric Soils List for CA604 - Intermountain Area, Parts of Lassen, Modoc, Shasta, and Siskiyou Counties, California.

Purpose: To transmit the revised Hydric Soils List for CA604 - Intermountain Area, CA as part of the SSURGO re-certification of the Official Soil Survey information.

Effective Date: Effective upon receipt.

Background: This Hydric Soils list has recently been revised. Criteria for determining and revising the soil mapunits on this list was developed by the NRCS National Technical Committee for Hydric Soils (NTCHS) and contained in the Federal Register (1994). Revisions made in the SSURGO (Soil Survey Geographic Database) reflect minor additions of inclusions to soil mapunits, changes to component and/or inclusion percentages within mapunits, and updates to landform terminology. Consult with the appropriate Area Resource Soil Scientist for assistance in using this list.

Filing Instructions: The revised Hydric Soils list is part of the re-certified and re-issued SSURGO soils database for the local NRCS Service Center downloaded from the Soil Data Mart. The new list is available electronically through the NRCS Soil Data Mart (<http://soildatamart.nrcs.usda.gov/>) and linked through Section II of the eFOTG. All previous lists are automatically removed and archived electronically through the Soil Data Warehouse.

A handwritten signature in cursive script that reads "Diane B. Holcomb".

DIANE HOLCOMB
State Resource Conservationist

DIST: Electronically through re-certified SSURGO data
