

STATEMENT OF WORK
RIPARIAN HERBACEOUS COVER
CODE (390)

DESIGN (PLANNING REQUIREMENTS)

Deliverables:

- 1 Document the planned purpose and specification(s) in the practice narrative, or on a separate sheet that is referenced in the practice narrative.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client
 - c. Practice standard criteria-related computations and analyses to develop plans, specifications and operation and maintenance plan including but not limited to:
 - i. Determination of widths and lengths and adapted species to be planted, retained, and/or naturally reestablished
 - ii. Protective measures for planted species including use exclusion
 - iii. Required seedbed condition and preparation methods
 - iv. Soil and seed amendments needed
 - v. Variety or origin and amount of each species to be planted
 - vi. Planting dates and depths and description of planting equipment
 - vii. Instructions as needed for placing different seed types (i.e. fluffy, large, small, slick and dense) in suitable drill boxes
 - viii. Other requirements of the conservation practice standard Riparian Herbaceous Cover (Code 390)
 - ix. The Colorado ECS-5 form will be used to document i. through vii.
- 2 Practice narrative will be included in the Conservation Plan of Operations (the Contract Support Document may serve as the Conservation Plan of Operations in certain situations).
- 3 Optional Document(s)
- 4 Operation and maintenance plan
- 5 Certification that the design meets practice standard criteria and comply with applicable laws and regulations
- 6 Design modifications during installation as required

INSTALLATION

Deliverables

- 1 Pre-application conference with client and contractor.
- 2 Verification that client has obtained required permits.
- 3 Staking and layout according to plans and specifications including applicable layout notes
- 4 Application inspection
 - a. Actual materials used
 - b. Inspection records

- 5 Facilitate and implement required design modifications with client and original designer
- 6 Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
- 7 Certification that the application process and materials meet design and permit requirements
- 8 Provide application guidance as needed.

CHECK OUT

Deliverables

- 1 Records of application
- 2 Colorado ECS-5 form (See Design section. One ECS-5 form covers both design and check out)
- 3 Extent of practice units applied
- 4 Final quantities of materials used
- 5 Certification that the application meets NRCS Standards and Specifications and permit requirements.
- 6 Document findings in the Conservation Assistance Notes, Conservation Plan of Operations, and if applicable, the Contract Support Document (the Contract Support Document may serve as the Conservation Plan of Operations in certain situations.
- 7 Progress reporting.
