

**NATURAL RESOURCES CONSERVATION SERVICE
STATEMENT OF WORK**

INTEGRATED PEST MANAGEMENT

(Acre)

CODE 595

These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific Statements of Work.

DESIGN (PLANNING REQUIREMENTS)

Deliverables

1. Complete documentation to support Colorado NRCS criteria and compatibility with other planned and applied practices.
 - a. Document the practice purpose(s) as identified in the conservation plan
 - b. Document required permits the client must obtain
 - c. Document criteria-related computations and analyses to develop plans and specifications including but not limited to the following.
 - i. Identification of targeted pest species
 - ii. Planned control methods (biological, cultural, physical, chemical)
 - iii. Environmental risk assessments for planned control methods
 - iv. Required mitigation for planned control methods
2. Provide written plans and specifications to the client including sketches and or drawings that adequately describe the requirements to install the practice to achieve the intended purpose(s). Develop plans in accordance with Colorado Integrated Pest Management 595 Practice Standard planning criteria and record specifications in a Colorado Integrated Pest Management 595 Implementation Requirements Worksheet.
3. Provide a written Operation and Maintenance plan.
4. Provide written certification that the design meets NRCS planning criteria and complies with applicable laws and regulations.
5. Provide design modifications during application as required.

INSTALLATION

Deliverables

1. Conduct a pre-application conference with the client.
2. Verify the client has obtained required permits.
3. Layout and communicate setback requirements for wetlands, water bodies, streams and other pest control-sensitive areas.
4. Provide application guidance as needed.
5. Facilitate and implement required design modifications with the client and the original designer.

6. Advise the client and NRCS on compliance issues with all Federal, state, tribal and local laws, regulations and NRCS policies during installation.
7. Certify the application process and materials meet design and permit requirements.

CHECK OUT

Deliverables

1. Provide records of application to include the following.
 - a. Extent of practice units applied
 - b. Actual materials, control methods and mitigation alternatives applied
 - c. Application rates, methods and timing.
2. Provide certification that the application meets NRCS standards and specifications and complies with permits.
3. Complete progress reporting.
