

## STATEMENT OF WORK

### Waste Transfer

CODE (634)

#### DESIGN

---

##### Deliverables:

1. Design documentation that will demonstrate that the criteria in NRCS practice standard have been met and are compatible with other planned and applied practices.
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List of required permits to be obtained by the client along with other participant (client) responsibilities (Reference Form CO-ENG-13, Notification of Participant Responsibilities).
  - c. Impacts on adjacent properties and structures.
  - d. Compliance with NRCS national and state utility safety policy (NEM Part 503-Safety, Subpart A - Engineering Activities Affecting Utilities 503.00 through 503.06).
  - e. List of facilitating practices
  - f. Practice standard criteria related computations and analyses to develop plans and specifications including but not limited to:
    - i. Geology and Soil Mechanics (NEM Subpart 531a)
    - ii. Hydrology and Hydraulics
    - iii. Structural and Mechanical Components
    - iv. Environmental Considerations (e.g. air quality, biosecurity).
    - v. Safety Considerations (NEM Part 503- Safety, Subpart A, 503.06 - 503.12)
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits. All applicable State and Federal (OSHA) safety requirements shall be addressed in the plans and specifications where appropriate.
3. Design Report and Quality Assurance Plan as appropriate (NEM Part 511, Subpart B Documentation, 511.11 and Part 512, Subpart D Quality Assurance Activities, 512.30 - 512.32).
  - a. General description of work
  - b. Items of work requiring inspection or testing
  - c. Timing of inspections or tests
  - d. Skills or certifications required by inspectors
4. Operation and Maintenance Plan
5. Certifications that the design meets practice standard criteria and comply with applicable laws and regulations (NEM Subpart A, 505.03(b) (2)). For jobs completed by NRCS employees, affix the approval signature of the individual with delegated engineering job approval authority to the drawings. Designs, drawings and specifications completed by non-NRCS employees shall be approved and sealed by a Professional Engineer licensed in Colorado.
6. Itemized cost estimate and list of materials.
7. Design modifications during installation as required.

#### INSTALLATION

---

##### Deliverables

1. Pre-Installation conference with client and contractor. (Reference Form CO-ENG-13, Notification of Participant Responsibilities).
2. Verification that client has obtained required permits and underground utility location.
3. Staking and layout according to plans and specifications including applicable layout notes.

4. Installation inspection (review the QA plan as appropriate).
  - a. Actual materials used.
  - b. Inspection records
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.

## **CHECK OUT**

---

### **Deliverables**

1. As-Built documentation.
  - a. Extent of practice units applied
  - b. Drawings
  - c. Final quantities
2. Certification that the installation meets NRCS standards, specifications, and all design requirements and is in compliance with permits (NEM Subpart A, 505.03(c)(1)). Form CO-ENG-12 may be used for this certification.
3. Progress reporting.
