* = The rating assigned is a change from the previous rating, and may differ from that shown on the H.E.L. worksheet.

H.E.L. CLASSES:

- 1 = Highly erodible
- 2 = Potentially highly erodible
- 3 = Not highly erodible

The CO685- Rio Blanco County Area, Colorado soil survey was available when the `Frozen HEL' list was developed. However, the soil survey has since been updated to include many new soil map units along the western edge of the soil survey. The 1982 hard copy soil survey will match the `Frozen HEL' list on eFOTG.
