

# TECHNICAL NOTES

---

U.S. DEPARTMENT OF AGRICULTURE    STATE OF COLORADO    NATURAL RESOURCES CONSERVATION SERVICE

---

## **Irrigation Technical Note No. 4**

**April 22, 2010**

To: All Colorado Area, Field and SCD Offices

From: Jason W. Peel  
Irrigation Water Management Specialist

### **Irrigation Toolbox**

The Irrigation Toolbox is a large collection of documents relating to irrigation water management (IWM) and salinity management that was compiled by the natural Resources Conservation Service West National Technical Center. Included in the software package are video, presentations, journal articles, and other technical resources in an indexed and searchable format. A collection of links to outside sources of information is also included. The Irrigation Toolbox will serve as a permanent reference for the Field Offices.

A copy of the software has been supplied to each Area, Field, and District office. A limited number of additional copies are available. To request a copy, contact Jason Peel by voice at (720) 544-2817, email [jason.peel@co.usda.gov](mailto:jason.peel@co.usda.gov), or by mail at 655 Parfet Street, Room E200C, Lakewood, CO 80215.
