TECHNICAL GUIDE NOTICE NO. 562

FEBRUARY 8, 2006

Re: Transmit Revised Residue and Tillage Management 329 Standard, Revised Nutrient Management 590 Job Sheet and Revised Plant Materials Technical Note No. 59

This Technical Guide Notice transmits the following revised technical note to Section I, and the following revised standard and job sheet to Section IV, of the Colorado electronic Field Office Technical Guide (FOTG). This notice is filed in the Section I Transmittals folder in the FOTG.

[Plant Materials Technical Note No. 59, Plant Suitability and Seeding Rates for Conservation Plantings in Colorado](#)

The text, tables and map files are combined into one PDF document.

[Residue and Tillage Management 329 Standard](#)

Per NHCP Notice 139, a sentence is added to the *Conditions Where Practice Applies* section that describes the types of equipment and field operations that are acceptable for this practice.

[Nutrient Management 590 Job Sheet](#)

The column headings in the Solid Manure Production Table 5 are modified to eliminate confusion between solid and liquid manure production.

Contact Information

Contact Jim Sharkoff, State Conservation Agronomist, at 720-544-2812 or email jim.sharkoff@co.usda.gov for questions regarding the content of this notice.

This is the only copy of this notice you will receive from the State Office.
