Irrigation Water Conveyance, Pipeline, Rigid Gated Pipeline 430HH Specifications, January 1987

Irrigation Water Conveyance, Pipeline, Rigid Gated Pipeline 430HH Statement of Work, September 2004

Irrigation Water Conveyance, Pipeline, Rigid Gated Pipeline 430HH Operation and Maintenance Plan, May 2005

**Archiving Standards**

Conservation practice standards in effect at the time the client makes a decision regarding a course of action (step 7 of the Conservation Planning Process) may be used for practice implementation unless public health, safety or welfare is adversely affected. A copy of all superseded standards shall be retained in NRCS field office files or other locations as approved by the State Conservationist, until such standards are no longer relevant to any active conservation plan or contract, or for 10 years, whichever is longer. Where formal contracts (e.g., long-term agreements) are involved, copies of outdated standards are to be retained for the period required by the pertinent NRCS policy governing that specific program.

These archived standards need to be removed from the FOTG and retained in a separate file (GM-450, Part 401, Subpart B, 401.18). An archive of canceled Colorado Standards is maintained in the Ecological Sciences Section at the State office in Lakewood.

**Filing Instructions**

District Conservationists are not required to maintain a hard copy of the FOTG in their respective Field Offices. One copy of the Colorado FOTG is maintained at the National Information Technology Center (NITC) Web Farm, and is available to NRCS employees through <http://my.nrcs.usda.gov> and [http://efotg.nrcs.usda.gov/efotg\\_locator.aspx?map=CO](http://efotg.nrcs.usda.gov/efotg_locator.aspx?map=CO), and to the private sector through [http://efotg.nrcs.usda.gov/efotg\\_locator.aspx?map=CO](http://efotg.nrcs.usda.gov/efotg_locator.aspx?map=CO).

This notice is filed in the Section I Transmittals folder.
