Archiving Standards

Conservation practice standards in effect at the time the client makes a decision regarding a course of action (step 7 of the Conservation Planning Process) may be used for practice implementation unless public health, safety or welfare is adversely affected. A copy of all superseded standards shall be retained in NRCS field office files or other locations as approved by the State Conservationist, until such standards are no longer relevant to any active conservation plan or contract, or for 10 years, whichever is longer. Where formal contracts (e.g., long-term agreements) are involved, copies of outdated standards are to be retained for the period required by the pertinent NRCS policy governing that specific program.

These archived standards need to be removed from the FOTG and retained in a separate file (GM-450, Part 401, Subpart B, 401.18). An archive of canceled Colorado Standards is also maintained in the Ecological Sciences Section at the State office in Denver.

Printing and Filing Instructions

District Conservationists are not required to maintain a hard copy of the eFOTG in their respective field offices. One copy of the Colorado eFOTG is maintained at the National Information Technology Center (NITC) Web Farm, and is available through <http://my.nrcs.usda.gov> and http://efotg.sc.egov.usda.gov/efotg_locator.aspx

This notice is filed in the Colorado eFOTG, Section I, Transmittals folder . A [Section I Transmittals Index](#) is available in PDF format to comply with Section 508 of the Rehabilitation Act of 1998.
