

Scenario Worksheet

Practice and Scenario Description:

Information Type	Data
Region	National
Discipline Group	Conservation Activity Plans
Practice Code/Name	138 - Organic Transition Plan
Scenario ID	1

Scenario Name: [Conservation Plan Supporting Organic Transition](#)

Scenario Description: Agricultural operation where producer will transition from conventional to organic to meet USDA National Organic Program (NOP) requirements.

Before Practice Situation: Agricultural operation currently managed using traditional and conventional methods for farming and/or ranching. The producer currently manages operation based upon personal knowledge, or other local criteria. Producer is interested in transitioning part or all of the management unit to meet national USDA requirements for certified operation. Producer is willing to collaborate with a certified TSP to develop a plan and collect/coordinate data recording to monitor per requirements of plan.

After Practice Situation: After EQIP contract approval, participant has obtained services from a certified TSP to develop the "Conservation Plan Supporting Organic Transition" conservation activity plan. The CAP criteria requires the plan to meet quality criteria for applicable resource concerns and provides for opportunities to implement a system of conservation practices which assist the producer to transition from conventional farming or ranching to an organic production system. The CAP plan will include conservation practices which address related resource concerns. CAP meets the basic quality criteria for the 138 plan as cited in the NRCS Field Office Technical Guide.

Scenario Feature Measure	Each
Scenario Unit	Each
Scenario Typical Size	1

Cost Summary:

Cost Category	Scenario Cost	Scenario Cost/Unit
Materials	\$0.00	\$0.00
Equipment/Installation	\$0.00	\$0.00
Labor	\$2,091.00	\$2,091.00
Mobilization	\$0.00	\$0.00
Acquisition of Technical Knowledge	\$0.00	\$0.00
Foregone Income	\$0.00	\$0.00
Total	\$2,091.00	\$2,091.00

Cost Details:

Labor
Labor provided by a certified Technical Service Provider for development of the CAP plan. Specific estimated costs as follows:

Name of Item	Unit	Cost/Unit	Number	Item Cost
CAP Labor, conservation scientist	Hour	\$51	41	\$2,091.00

Practice Code/Name	138 - Organic Transition Plan
Scenario ID	2

Scenario Name: [Conservation Plan Supporting Organic Transition Nonlocal](#)

Scenario Description	Agricultural operation where producer will transition from conventional to organic to meet USDA National Organic Program (NOP) requirements. No qualified TSP within 300 miles.
Before Practice Situation	Agricultural operation currently managed using traditional and conventional methods for farming and/or ranching. The producer currently manages operation based upon personal knowledge, or other local criteria. Producer is interested in transitioning part or all of the management unit to meet national USDA requirements for certified operation. Producer is willing to collaborate with a certified TSP to develop a plan and collect/coordinate data recording to monitor per requirements of plan.
After Practice Situation	After EQIP contract approval, participant has obtained services from a certified TSP to develop the "Conservation Plan Supporting Organic Transition" conservation activity plan. The CAP criteria requires the plan to meet quality criteria for applicable resource concerns and provides for opportunities to implement a system of conservation practices which assist the producer to transition from conventional farming or ranching to an organic production system. The CAP plan will include conservation practices which address related resource concerns. CAP meets the basic quality criteria for the 138 plan as cited in the NRCS Field Office Technical Guide.

Scenario Feature Measure	Each
Scenario Unit	Each
Scenario Typical Size	1

Cost Summary:

Cost Category	Scenario Cost	Scenario Cost/Unit
Materials	\$0.00	\$0.00
Equipment/Installation	\$0.00	\$0.00
Labor	\$3,373.00	\$3,373.00
Mobilization	\$0.00	\$0.00
Acquisition of Technical Knowledge	\$0.00	\$0.00
Foregone Income	\$0.00	\$0.00
Total	\$3,373.00	\$3,373.00

Cost Details:

Labor

Labor provided by a certified Technical Service Provider for development of the CAP plan. Specific estimated costs as follows:

Name of Item	Unit	Cost/Unit	Number	Item Cost
CAP Labor, conservation scientist	Hour	\$51	49	\$2,499
Transportation (Refer to Component 295)	Mile	\$0.56	600	\$336
Lodging (Refer to Component 297)	Each	\$77	4	\$308
CAP Labor, per diem	Each	\$46	5	\$230
Total:				\$3,373
