

**STATEMENT OF WORK**  
**Alley Cropping (311)**  
**Florida**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

---

## **DESIGN**

### **Deliverables:**

1. Design documents that demonstrate criteria in Florida NRCS practice standard have been met and are compatible with planned and applied practices.
  - a. Practice purpose(s) as identified in the conservation plan
  - b. List of required permits to be obtained by the client
  - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. Analyses of woody plant, crop, and forage compatibility including computation of required spacing between tree/shrub sets to achieve intended purpose(s) and minimize pest impacts
    - ii. Orientation of tree/shrub sets to achieve intended purpose(s)
    - iii. Analysis of required spacing between tree/shrub sets to achieve intended purpose(s) and facilitate the use of machinery and equipment
    - iv. Protective measures for plants to assure desired function including use exclusion
    - v. Additional provisions, as required, to control soil erosion by surface water and to improve air quality
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Documentation of needed operation and maintenance.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during installation as required.

---

## **INSTALLATION**

### **Deliverables**

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements.

---

## **CHECK OUT**

### **Deliverables / Practice Certification and Check-out Requirements**

1. Records of application for certification:
  - a. Actual plant materials or species used and applied
  - b. Spacing between crop/forage alleys and woody plantings (feet)
  - c. Spacing between tree/shrub sets (feet)
  - d. Planting date of tree/shrub sets
  - e. Type of site preparation and planting method used
2. Certification that the application meets Florida NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.
