

**STATEMENT OF WORK**  
**Mulching (484)**  
**Florida**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

## **DESIGN**

---

### **Deliverables:**

1. Design documents that demonstrate criteria in Florida NRCS practice standard have been met and are compatible with planned and applied practices.
  - a. Practice purpose(s) as identified in the conservation plan
  - b. List of required permits to be obtained by the client
  - c. Compliance with NRCS national and state utility safety policy (NEM Part 503-Safety, Subpart A - Engineering Activities Affecting Utilities 503.00 through 503.06)
  - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. Type of material, thickness/depth, durability
    - ii. Preparatory surface treatment including vegetation measures
    - iii. Application technique by material type
    - iv. Additional requirements to conserve soil moisture, moderate soil temperature, control erosion, suppress weeds, establish vegetative cover, improve soil condition and reduce airborne particulates.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits. Plans and specifications shall be developed in accordance with the requirements of conservation practice standard Mulching (Code 484).
3. Documentation of needed operation and maintenance.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during installation as required.

## **INSTALLATION**

---

### **Deliverables**

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements.

## **CHECK OUT**

---

### **Deliverables / Practice Certification and Check-out Requirements**

1. Records of application for certification:
  - a. Purpose of the mulch
  - b. Type of mulch material used
  - c. Percent cover and/or thickness of mulch material
  - d. Timing of application (pre-plant or post-plant)
  - e. Site preparation
  - f. Listing of netting, tackifiers, or method of anchoring
  - g. Operation and maintenance
2. Certification that the application meets Florida NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.
