

## **Critical Habitat for the American Crocodile**

Critical Habitat for the American crocodile (*Crocodylus acutus*) as defined in the Code of Federal Regulations 50 Parts 1 to 199, revised as of October 1, 2000.

“Florida. All land and water within the following boundary: Beginning at the easternmost tip of Turkey Point, Dade County, on the coast of Biscayne Bay; thence southeastward along a straight line to Christmas Point at the southernmost tip of Elliott Key; thence southwestward along a line following the shores of the Atlantic Ocean side of Old Rhodes Key, Palo Alto Key, Angelfish Key, Key Largo, Plantation Key, Windley Key, Upper Matecumbe Key, Lower Matecumbe Key, and Long Key; thence to the westernmost tip of Middle Cape; thence northward along the shore of the Gulf of Mexico to the north side of the mouth of Little Sable Creek; thence eastward along a straight line to the northernmost point of Nine-Mile Pond; thence northeastward along a straight line to the point of beginning.” See map below.

## General locations of the designated critical habitat for the American crocodile.

### General Area

### Distance: Miles

0 5 10 15 Miles

### Legend

-  City/Town
-  Major Road/Highway
-  Critical Habitat

Use Constraints: This map is intended to be used as a guide to identify the general areas where critical habitat has been designated. Refer to the narrative description published in the Code of Federal Regulations (CFR) 50 Parts 1 to 199 (a copy of this text is printed on the reverse of this map).
