NATIONAL ENGINEERING FIELD HANDBOOK
210-VI
NOTICE FL-126

SUBJECT: ENG - NATIONAL ENGINEERING FIELD HANDBOOK, PART 650, FLORIDA SUPPLEMENT.

Purpose. To supplement the National Engineering Field Handbook (NEFH), Part 650.

Effective Date. This supplement is effective when received.

This supplement transmits the procedures for using the Florida NRCS Engineering Job Approval Authority (EJAA) Database, revised Table of Contents to Chapter 20, and the Procedures for using the Florida NRCS EJAA Database.

NRCS developed a Microsoft Access® database that provides users a simpler and streamline process to delegate, concur, maintain and/or update an individual's EJAA. It will also be useful to users in finding individuals with appropriate EJAA for checking, reviewing, or approving designs or provide construction check out.

The Florida NRCS EJAA Microsoft Access® database will only be used by employees who are responsible for delegating EJAA. Employees who do not delegate EJAA will not have to be familiar with the Florida NRCS EJAA. Employees who are delegated EJAA will not see any change in the process for receiving their EJAA.

Employees responsible for delegating EJAA should review and become familiar with the Florida NRCS EJAA Database and use the database when delegating EJAA.

Filing Instructions. The attached supplement is to be filed in the NEFH, Part 650, Florida Supplement.
