

**Verification of Preconstruction Conference**

I verify that I met with a representative of the NRCS on \_\_\_\_\_ (date) and that the requirements for construction of the practices checked below were discussed. I further verify that I have been informed that any variation from the plans and specifications discussed today must be requested and approved by the NRCS prior to any actual construction. I understand that during any biosecurity occurrence, construction of proposed practice and any subsequent payment may be delayed due to access restrictions incurred on the premises of the property. Also, I have been provided a copy of the Operation & Maintenance Plan(s) for the practices checked below.
