

UNITED STATES DEPARTMENT OF AGRICULTURE
NATURAL RESOURCES CONSERVATION SERVICE

NORTH CENTRAL GLACIATED REGION MLRA SOIL SURVEY OFFICE
ST. PAUL, MINNESOTA

**THIRD AMENDMENT TO THE CLASSIFICATION AND CORRELATION OF
SOILS IN KNOX COUNTY, ILLINOIS
A SUBSET OF MLRAS 108B AND 115C**

March 2005

Notes to Accompany Correlation and Classification of the Soils

1. On page 14, under DORCHESTER SERIES, add the following sentence: "However, this series is retained as previously correlated, until further investigations and conclusive documentation can be obtained."

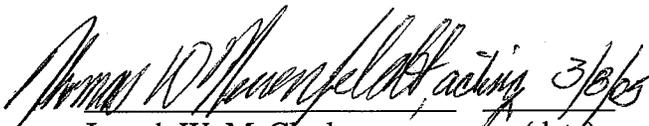

Classification of the Soils

2. On page 17, change the classification of the *Assumption soil to "Fine-silty, mixed, superactive, mesic Mollic Oxyaquic Hapludalfs".

Certification Statement

3. On page 18, under Item 3, remove the last sentence: "A list of map unit symbols and location of a representative mapping unit in MLRA 108 will be published in the soil survey report".
