AMENDMENT NO. 1

A correlation amendment needs to be added to the “Classification and Correlation of the Soils of Morgan and Scott Counties, Illinois” document issued in March, 1984. These counties were published as a joint soil survey (IL606), but will be now digitized and certified individually. This amendment supports the SSURGO digitizing initiative.

The revisions needed are as follows:

(This change was previously covered by the Amendment for Illinois SSURGO initiative counties, dated April 2005.)
