FIRST AMENDMENT TO THE CLASSIFICATION AND CORRELATION
OF THE SOILS OF ROCK ISLAND COUNTY, ILLINOIS
(A SUBSET OF MLRA'S 108B AND 115C)

October 23, 2002

AMENDMENT NO. 1

A correlation amendment needs to be added to the "Classification and Correlation of the Soils in Rock Island County, Illinois" document issued in February 2002. The changes to the Calco unit are to maintain uniform naming of "wet phase" soil map units. The changes to the Titus unit are made because the unit does not appear on the digitized soil survey maps. The specific corrections needed are as follows:

From list of publication symbols and approved map unit names:

Page 10 Change 4400L publication symbol to 1400A and approved map unit name from "Calco silty clay loam, undrained, frequently flooded, long duration" to "Calco silty clay loam, undrained, 0 to 2 percent slopes, frequently flooded".

Delete 7404A symbol and map unit name "Titus silty clay loam, 0 to 2 percent slopes, rarely flooded" from all 4 columns.

From the alphabetical list of soil map units:

Page 18 Change 4400L to 1400A, and delete "long duration" after map unit name, to read "Calco silty clay loam, undrained, frequently flooded".

Page 20 Delete 7404A symbol and map unit name.

From list of prime farmland map units:

Page 22 Delete 7404A symbol and map unit name line entry.

From the soil conversion legend:

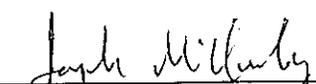

Page 24 Change publication symbol 4400L to 1400A.

Delete 7404A Field and Publication symbol.

From notes to accompany:

Page 29 Under Calco Series, change 4400L to 1400A.

SECOND AMENDMENT TO THE CLASSIFICATION AND CORRELATION
OF THE SOILS OF ROCK ISLAND COUNTY, ILLINOIS
(A SUBSET OF MLRA'S 108B AND 115C)

April 26, 2004

AMENDMENT NO. 2

A correlation amendment needs to be added to the "Classification and Correlation of the Soils in Rock Island County, Illinois" document issued in February 2002. The slope phase portion of the mapunit name for mapunit symbol 675B needs to be corrected. The slope phase for this mapunit symbol was correct in other portions of the correlation document and in the soil survey manuscript submitted for review. The specific corrections needed are as follows:

From list of publication symbols and approved map unit names:

Page 6 Change field map unit name for field symbol 675B from "Greenbush silt loam, 0 to 2 percent slopes" to "Greenbush silt loam, 2 to 5 percent slopes".

Change approved map unit name for publication symbol 675B from "Greenbush silt loam, 0 to 2 percent slopes" to "Greenbush silt loam, 2 to 5 percent slopes".

From list of prime farmland map units:

Page 21 Change map unit name for map symbol 675B from "Greenbush silt loam, 0 to 2 percent slopes" to "Greenbush silt loam, 2 to 5 percent slopes".
