TECHNICAL GUIDE NOTICE IL-109

Purpose. To provide standards and specifications for Mine Shaft & Adit Closing (457) and Forage Harvest Management (511).

Background. Pasture and Hayland Management (510) standard has been replaced with Prescribed Grazing (528A) and Forage Harvest Management (511). All pastureland management will now refer to practice 528A while all hayland management will refer to Practice 511. However, specifications relative to Hayland Management for Illinois have not been incorporated into the new 511 standard. Therefore, specifications for Hayland Management will be according to the archived Pasture and Hayland Management Standard (510).

Actions. Make a pen and ink addition in the Index of Conservation Practices as follows:

<u>Practice name and unit</u>	<u>Code</u>	<u>Responsible discipline</u>	<u>Std. Date</u>
Mine Shaft and Adit Closing	457	ENG-SE	9/97
Forage Harvest Management	511	ECS-AGRON	9/97

File Mine Shaft and Adit Closing (457) standard and specification in Section IV right after Irrigation Water Management 449. File Forage Harvest Management (511) standard and specification in Section IV right after Fishpond Mangement (399). Place Pasture and Hayland management (510) behind a divider labeled Archived Standards, at the end of Section IV.
