TECHNICAL GUIDE NOTICE-IL-14

We have been advised that the Washington office has made changes in the corrugated polyethylene drainage tubing portion of the National Standard for 606, Drain. In order to effect these changes in Illinois, the following pen and ink changes will be made in Illinois Standard and Specification, IL-P-606-68.

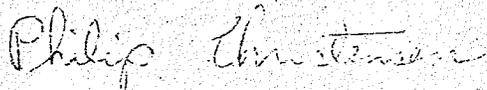

Page 606-11, Paragraph 2.1 - Add the following sentence:  
"It covers sizes 4 to 8 inches inclusive".

Page 606-11, Paragraph 4.1.1 - Change "Category 3" to  
Category 4 or 5".

Page 606-12, Paragraph 5.3 - Change the "minimum crushing strength of 23.5 pounds per square inch" to "35.0 pounds per square inch."

Page 606-13, Paragraph 7.3.2 - Add the following sentence:  
"The sand shall be freeflowing with a moisture content of less than 0.1 percent and be graded as specified in paragraph 2 of ASTM-D 1556."

Please make the above changes in your standard, 606, Drain, Technical Guide.

Philip Christensen
