TECHNICAL GUIDE NOTICE IL-287

Purpose: To provide notice of revisions to the Field Office Technical Guide (FOTG) for selected standards and supporting documents. The FOTG can be accessed through the Illinois home page by clicking on "FOTG" or at <http://www.nrcs.usda.gov/technical/efotg/>.

Location

Summary of Changes

Section IV. A. Index of Conservation Practice Standards

Index of Conservation Practice Standards – Alphabetical	<i>New dates for revised conservation practice standards</i>
Index of Conservation Practice Standards – Numerical	<i>New dates for revised conservation practice standards</i>

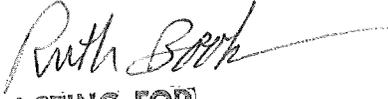

Section IV. B. Conservation Practices

Pond (378) Standard	<i>Updated for consistency with the newly revised Grade Stabilization Structure standard.</i> <i>Added requirements for content of design plans and specifications.</i>
Grade Stabilization Structure (410) Standard and supporting documents	<i>Reorganized the design criteria for clarity. Separated specific criteria for open flow, side inlet, and closed conduit type structures.</i> <i>Revised the criteria for side inlet drainage structures.</i> <i>Added clarification and definitions for types of structures.</i> <i>Added criteria requiring an alternate route for flows in excess of principal spillway capacity, when the principal spillway is designed to carry the total design storm flow.</i> <i>Added criteria for lined chute flow velocity.</i> <i>Clarified the eligibility criteria for small closed conduit structures to be designed using the criteria of CPS 638 – Water and Sediment Control Basin, utilizing Illinois conditions to determine a drainage area limit.</i> <i>Added requirements for content of design plans and specifications.</i>

Updated the Statement of Work.

Removed the Documentation and Certification sheet from FOTG. Documentation requirements for Grade Stabilization Structure must follow the appropriate Statement of Work.

Technical Guide Notice **287** is filed under Section I, "FOTG transmittals" at the FOTG site.
