TECHNICAL GUIDE NOTICE IL-47

This notice transmits an interim standard for mine reclamation work that is to be included in Section IV of the technical guide for use in Illinois.

The Rural Abandoned Mine Program has created an urgent need for standards covering major problem areas that require SCS technical input.

This interim standard will be evaluated for a period of time and then considered for addition to the National Handbook of Conservation Practices. Until that time, land reclamation work on abandoned mined areas shall conform to this interim standard.

Action Required

1. Add in the "Index of Standards and Specifications Applicable in Illinois," Section IV, the following:

Landslide Treatment4/80

This should be added on page 1 beneath Land Reclamation, Abandoned Mined Land--Fire Control.

2. Insert the new interim standard in proper sequence in Section IV.

Michael C. Schendel acting
