TECHNICAL GUIDE NOTICE IL-7

Recent changes made in the Illinois Supplement to Conservation Planning Memorandum-2 (Rev. 1) require that standards and specifications for practices be arranged alphabetically within Section IV without sub-sections.

Please replace the present Index of Standards and Specifications applicable in Illinois with the attached revised Index. Also remove the sub-section dividers and rearrange the standards and specifications in alphabetical order in accord with the index.

All practice names used in the index are consistent with those used in the National Catalog of Practices. A few practices still in use have names not on your index. These will be renamed or rewritten soon to conform to the index.
