

**NATURAL RESOURCES CONSERVATION SERVICE
OPERATION AND MAINTENANCE PLAN FOR
WASTE FACILITY CLOSURE**

CODE 360

Name _____

Ident. No. _____

Legal Desc. _____

County _____

The closure of this waste facility was designed and installed to protect the quality of surface water and groundwater resources, to mitigate air emissions, to eliminate a safety hazard for humans and livestock, and to safeguard the public health.

appropriate conservation practice standard for the intended purpose.

Specific Recommendations

The estimated life span of this installation is at least 15 years.

The proper decommissioning and rehabilitation of a waste treatment lagoon, waste storage facility, confined animal housing, feedlot, or composting facility should require little or no operation and maintenance; however if it is converted to another use (such as a fresh water facility), operation and maintenance shall be in accordance with the needs as set forth in the

If you need additional technical assistance to implement the operation and maintenance plan for this structure, contact the Natural Resources Conservation Service (NRCS) at your local USDA Service Center (listed in the telephone book under United States Government).
