

STATEMENT OF WORK
Salinity and Sodic Soil Management (610)
Kansas
November 2011

State contact: State Resource Conservationist, 785-823-4547

These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific statements of work.

DESIGN

Deliverables

1. Design documentation that will demonstrate that the criteria in the Natural Resources Conservation Service (NRCS) practice standard has been met and is compatible with other planned and applied practices.
2. Practice purpose(s) as identified in the conservation plan.
3. List of required permits to be obtained by the client.
4. Practice standard criteria-related inventories and analyses to develop a soil salinity management plan.
5. Written plans and specifications (including sketches and drawings) shall be provided to the client that adequately describe the requirements to install the practice and obtain necessary permits.
6. Certification that the design meets practice standard criteria and complies with applicable laws and regulations as documented on the Form KS-ECS-4, Grass Seeding.
7. Design modifications during installation as required.
8. If enrolled in a conservation program, this practice must meet all conditions and requirements of program enrollment that may exceed the practice standard.

INSTALLATION

Deliverables

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Application assistance.
4. Facilitate and implement required management plan modifications with client and original designer.
5. Certification that the application process meets the management plan and permit requirements.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations, and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements as documented on the Form KS-ECS-4.

CHECKOUT

Deliverables

1. Records of application.
Extent of practice units applied
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits as documented on the Form KS-ECS-4.
3. Progress reporting.
