

STATEMENT OF WORK
Waste Recycling (633)
Kansas
February 2012

State contact: State Resource Conservationist

These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific statements of work.

DESIGN

Deliverables

1. Design documentation that will demonstrate that the criteria in the Natural Resources Conservation Service (NRCS) practice standard has been met and is compatible with planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan
 - b. List of required permits to be obtained by the client
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to the following:
 - i. Results of applicable sampling, analyses, and tests provided by the client
 - ii. Planned waste utilization
 - iii. Additional requirements applicable to manure or organic materials, non-point source pollution, soil condition, and air quality
2. Written plans and specifications (including sketches and drawings) shall be provided to the client that adequately describe the requirements to install the practice and obtain necessary permits.
3. Documentation of needed operation and maintenance.
4. Certification that the design meets practice standard criteria and complies with applicable laws and regulations.
5. Design modifications during installation as required.
6. If enrolled in a conservation program, this practice must meet all conditions and requirements of program enrollment that may exceed the practice standard.
7. If waste product is from livestock or poultry operations, solids and/or wastewater from municipal plants and is land applied, refer to Statement of Work for Conservation Practice 590, Nutrient Management.

INSTALLATION

Deliverables

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations, and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements.
8. If waste product is from livestock or poultry operations, solids and/or wastewater from municipal plants and is land applied, refer to Statement of Work for Conservation Practice 590.
9. If waste product is to be composted, refer to Statement of Work for Conservation Practice 317, Composting Facility.

CHECKOUT

Deliverables

1. Records of application.
 - a. Extent and location of practice units applied
 - b. Actual materials needed

STATEMENT OF WORK
Waste Recycling (633)
Kansas
February 2012

2. Certification that the application meets NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.
4. If waste product is from livestock or poultry operations, solids and/or wastewater from municipal plants and is land applied, refer to Statement of Work for Conservation Practice 590.
