**Tribe:** Defaults to no tribe or select appropriate tribe.

**National Program:** Select appropriate program.

**Agency Affiliation:** Select appropriate affiliation.

**Undertakings Reviewed that have the Potential to Effect Cultural Resources:** Report the number and acres of those planned conservation practices that have the potential to affect cultural resources. Refer to [KS Social Sciences Technical Note KS-3](#), dated February 9, 2009 for a listing of practices that have the potential to affect cultural resources. For additional information, refer to Kansas Amendment to the General Manual ([420-GM, Amend. KS5, Sept. 2007](#)).

**Field Investigations Conducted:** Report the number and acres of field investigations conducted. A field investigation is an onsite inventory conducted to determine the presence or absence of cultural resources. This investigation is normally carried out in conjunction with practice design and layout as completed in the field.
