KANSAS BULLETIN NO. KS180-13-2

SUBJECT: CPA—Wetland Determination Worksheet for Probable Upland Sites

Purpose. To provide guidance on the subject worksheet

Expiration Date. September 30, 2014

In response to the high demand for wetland determinations requested via Form AD-1026, Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) Certification, the attached worksheet was developed to assist agency wetland experts in addressing wetland determination requests. Field offices statewide are encouraged to use this worksheet to provide information to assist the agency wetland experts in completing wetland determinations. The requirement for “separation of duties” as explained in the Wetland Conservation Compliance Provision Improvement Action Plan (Kansas Bulletin No. KS180-13-1) should be considered when using this worksheet.

Contact: Andrew G. Burr, State Biologist, at 785-823-4593 or andy.burr@ks.usda.gov.
