<b>102 Comprehensive Nutrient Mgt Plan - Written</b>	One time payment to encourage the participant to hire a technical service provider for completion of the CNMP. Not eligible for payment if the Natural Resources Conservation Service completes the CNMP.	Each	\$2,316.60	\$2,779.92	Included in the Conservation Activity Plan ranking category only.									
<b>104 Nutrient Mgt Plan - Written</b>	One time payment to encourage the participant to hire a technical service provider for completion of the Nutrient Mgt Plan. Not eligible for payment if the Natural Resources Conservation Service completes the Nutrient Mgt Plan.	Each	\$1,737.45	\$2,084.94	Included in the Conservation Activity Plan ranking category only.									
<b>118 Irrigation Water Mgt Plan - Written</b>	One time payment to encourage the participant to hire a technical service provider for completion of the Irrigation Water Mgt (IWM) Plan. Not eligible for payment if the Natural Resources Conservation Service completes the IWM Plan.	Each	\$694.98	\$833.98	Included in the Conservation Activity Plan ranking category only.									
<b>134 Irrigation Transition to Dryland Plan - Written</b>	One time payment to encourage the participant to hire a technical service provider for completion of the Irrigation Transition to Dryland Plan. Not eligible for payment if the Natural Resources Conservation Service completes the plan.	Each	\$926.64	\$1,111.97	Included in the Conservation Activity Plan ranking category only.									
<b>313 Waste Storage Facility</b>	A Liquid Storage facility consisting of a cast-in-place concrete tank below ground. The unit cost for this facility is based on the cubic feet (CuFt) of total storage in the structure.	CuFt	\$2.20	\$2.63			X							
	A Liquid Storage facility consisting of a prefabricated glass-fused metal or similar storage tank. The unit cost for this facility is based on the cubic feet of total storage in the structure.	CuFt	\$2.98	\$3.57			X							
	A Liquid Storage facility consisting of a cast-in-place concrete tank used to support an animal confinement building. The unit cost for this facility is based on the cubic feet of total storage in the structure.	CuFt	\$0.93	\$1.11			X							
	A Solid Storage facility to store manure and bedding. The unit cost for this activity will be the animal units (AU) used for design.	AU	\$387.03	\$464.43			X

					FLH	GLH	LSW	SFR	WQI/CLH	WQn	QRA	WLH	Tribal
<b>314 Brush Management</b>													
	Chemical Aerial Broadcast Treatment	Acre	\$30.16	\$36.19		X <sup>1</sup>						X <sup>1</sup>	X <sup>1</sup>
	Chemical Ground Broadcast/Spot	Acre	\$28.35	\$34.02		X <sup>1</sup>						X <sup>1</sup>	X <sup>1</sup>
	Mechanical Treatment High Infestation Level	Acre	\$237.83	\$285.39		X						X	X
	Mechanical Treatment Medium Infestation Level	Acre	\$118.91	\$142.70		X						X	X
	Mechanical Treatment Low Infestation Level	Acre	\$56.70	\$68.04								X	
	Mechanical Treatment Low Infestation Level - Eligible only when total canopy cover of all woody species to be treated meets or exceeds medium infestation level as found in Table I of the Brush Management specification.	Acre	\$56.70	\$68.04									X

<sup>1</sup> Broadcast and aerial treatment will be eligible only where mechanical or spot treatment are not practical. If broadcast or aerial treatment is needed, justification will be documented in the producer's case file.

**316 Animal Mortality Facility**

	A chest type freezer with removable trays for dead animals set on a concrete slab. The unit cost is for each freezer unit installed.	Each	\$14,398.52	\$17,278.22			X						
	A concrete block lined disposal pit with a concrete slab cover and two chute openings. The unit cost is based on the square feet (SqFt) of pit area.	SqFt	\$30.94	\$37.12			X						
	A dual burning incinerator approved for dead animals set on a concrete slab. The unit cost is for each incinerator installed.	Each	\$17,066.57	\$20,479.88			X						
	Livestock Waste (New Facility) - A chest type freezer with removable trays for dead animals set on a concrete slab. The unit cost is for each freezer unit installed.	Each	\$9,599.01	\$14,398.52			X						
	Livestock Waste (New Facility) - A concrete block lined disposal pit with a concrete slab cover and two chute openings. The unit cost is based on the SqFt of pit area.	SqFt	\$20.62	\$30.94			X						
	Livestock Waste (New Facility) - A dual burning incinerator approved for dead animals set on a concrete slab. The unit cost is for each incinerator installed.	Each	\$11,377.71	\$17,066.57			X

					FLH	GLH	LSW	SFR	WQI/ CLH	WQn	QRA	WLH	Tribal
<b>317 Composting Facility<sup>1</sup></b>													
	A mechanical composter for dead animals and bedding set on a concrete slab. The unit cost is for each composter installed.	Each	\$30,806.48	\$36,967.77			X						
	Open lot Facility - A composting facility consisting of a compacted and leveled area for composting manure and bedding. The unit cost for this activity is the acres of area utilized as a compost facility.	Acre	\$1,572.79	\$1,887.34			X		X <sup>2</sup>				X
	Structure Facility - A composting facility consisting of concrete slab and walls, but not including the roof structure, for composting dead animals and manure or bedding. The unit cost for this activity is the SqFt of area of compost facility constructed.	SqFt	\$11.43	\$13.71			X		X <sup>2</sup>				X
	Livestock Waste (New Facility) - A mechanical composter for dead animals and bedding set on a concrete slab. The unit cost is for each composter installed.	Each	\$20,537.65	\$30,806.48			X						
	Livestock Waste (New Facility) - Open lot Facility - A composting facility consisting of a compacted and leveled area for composting manure and bedding. The unit cost for this activity is the acres of area utilized as a compost facility.	Acre	\$1,048.52	\$1,572.79			X						
	Livestock Waste(New Facility) - Structure Facility - Composting facility consisting of concrete slab and walls, but not including roof structure, for composting dead animals and manure/bedding. Unit cost is SqFt of area of compost facility constructed.	SqFt	\$7.62	\$11.43			X						

<sup>1</sup> Practice must be part of a Nutrient Management Plan that is developed prior to payment for this practice. For imported waste, the payment is limited to the storage needed for the contracted waste.

<sup>2</sup> Practice is eligible for Water Quality concerns only.

**322 Channel Bank Vegetation**

Bareroot Seedling Planting	Each	\$1.04	\$1.25	X			X	X <sup>1</sup>				X
Live Willow Cuttings Planting	Each	\$1.32	\$1.59	X			X	X <sup>1</sup>				X
Native Grass Seeding	Acre	\$114.53	\$137.43	X			X	X <sup>1</sup>				X
Native Grass Seeding using Non-Selective Herbicide	Acre	\$111.87	\$134.24	X			X	X <sup>1</sup>				X
Rhizome Planting	Each	\$0.58	\$0.70	X			X	X <sup>1</sup>				X

<sup>1</sup> Practice is eligible for Water Quality concerns only.

<b>328 Conservation Crop Rotation</b>														
	Implementation of a three crop type rotation. Practice will be implemented a minimum of three years. Payment will be made upon annual implementation of the practice.	Acre	\$6.73	\$8.08				X <sup>1</sup>	X <sup>1</sup>					X <sup>1</sup>
	Implementation of a conservation crop rotation system where 100% of water right is converted to non-irrigated cropland. Only irrigated acres are eligible for payment. Practice will be implemented minimum of three years.	Acre	\$109.76	\$131.72						X <sup>1</sup>				
	Implementation of a conservation crop rotation system where 100% of water right is converted to non-irrigated cropland. Only irrigated acres are eligible for payment. Practice will be implemented minimum of three years. Eligible only in Kansas Water Office, Groundwater Management District, and Kansas Department of Agriculture Division of Water Resources (KDA/DWR) designated Quick Response Areas.	Acre	\$142.26	\$144.72								X		

<sup>1</sup> Payment for 328 is not eligible on the same acres where payment is being received for 329, 345, or 346.

**329 Residue and Tillage Management, No-Till/Strip Till/Direct Seed**

No Till/Strip Till - Minimum three crop type rotation will be installed. Practice will be implemented a minimum of three years. Payment will be made upon annual implementation of the practice.	Acre	\$12.26	\$14.72				X	X	X <sup>1</sup>					X
--	------	---------	---------	--	--	--	---	---	----------------	--	--	--	--	---

<sup>1</sup> Eligible only if the producer is reducing current water use by a minimum 35 percent.

**332 Contour Buffer Strips**

Introduced Grass Seeding	Acre	\$62.03	\$74.43				X	X <sup>1</sup>	X	X				X
Introduced Grass Seeding using Non-Selective Herbicide	Acre	\$59.37	\$71.24				X	X <sup>1</sup>	X	X				X
Introduced Grass Seeding using Non-Selective Herbicide With Fertilizer Application	Acre	\$78.42	\$94.10				X	X <sup>1</sup>	X	X				X
Introduced Grass Seeding With Fertilizer Application	Acre	\$81.08	\$97.29				X	X <sup>1</sup>	X	X				X
Native Grass and Forb Seeding	Acre	\$126.15	\$151.38				X	X <sup>1</sup>	X	X				X
Native Grass and Forb Seeding using Non-Selective Herbicide	Acre	\$123.50	\$148.19				X	X <sup>1</sup>	X	X				X
Native Grass Seeding	Acre	\$114.53	\$137.43				X	X <sup>1</sup>	X	X				X
Native Grass Seeding using Non-Selective Herbicide	Acre	\$111.87	\$134.24				X	X <sup>1</sup>	X	X				X

<sup>1</sup> Practice is eligible for Water Quality concerns only.

**338 Prescribed Burning**

Prescribed Burning	Acre	\$5.25	\$6.30		X								X	X

<sup>1</sup> Financial assistance available for cross fences and perimeter/boundary fences. Perimeter/boundary fences are only eligible around expired/expiring Conservation Reserve Program fields. Prior to beginning design on any perimeter/boundary fence, scheduled for financial assistance, a participant shall provide assurances of legal property line locations AND agreements with adjoining landowners. As a minimum this may include a notarized agreement with adjoining landowners regarding location and maintenance; notarized agreement with township, county, or state in the case of road right of ways; and/or a legal survey. Expenses for legal surveys and agreements are the responsibility of the participant. Failure to provide needed documentation of location and agreement with adjoining landowners may result in contract termination.

<sup>2</sup> Practice is eligible for Water Quality and Cropland Health concerns. Practice addressing Cropland Health concerns is eligible only on cropland planted to permanent vegetation meeting NRCS eFOTG standards and specifications of 512 or 550.

<b>642 Water Well</b>														
	Installation of a drilled well with a minimum five-inch diameter casing and well head protection. The unit cost is based on the depth of the completed well in feet.	Feet	\$14.73	\$17.68		X	X	X		X <sup>1</sup>			X	X

<sup>1</sup> Practice is eligible for Water Quality and Cropland Health concerns. Practice addressing Cropland Health concerns is eligible only on cropland planted to permanent vegetation meeting NRCS eFOTG standards and specifications of 512 or 550.

**644 Wetland Wildlife Habitat Management**

	Wetland Wildlife Habitat Management. Practice will be implemented a minimum of three years to manipulate water levels for wildlife. Payment will be made upon the annual implementation of the practice.	Acre	\$38.48	\$46.17				X <sup>1</sup>	X <sup>1</sup>	X <sup>1</sup>	X <sup>1</sup>		X <sup>1</sup>
	Wetland Wildlife Habitat Management. Practice will be implemented a minimum of three years to manipulate vegetation for wildlife. Payment will be made upon the annual implementation of the practice.	Acre	\$40.89	\$49.07			X <sup>2</sup>		X <sup>2</sup>				

<sup>1</sup> **Water Level Manipulations-** this practice will be used ONLY after installation of practice 587 in a constructed, enhanced, or restored wetland/shallow water area. Drawdowns will be completed in one of the three seasons annually: **Early**—March 15 through May 1; **Mid-season**—May 1 through July 15 or **Late**—after July 15. Water levels should (1) be reduced slowly to increase annual vegetation diversity, AND (2) have no more than 25 percent of the flooded area remaining saturated/flooded after drawdown is complete. Reflooding shall begin no later than August 15 and be completed gradually with all boards/stop logs installed by November 15 of that year. This practice is not eligible on rangeland.

<sup>2</sup> **Vegetation Management** will be completed annually to provide optimum food and structure for migratory birds. This practice will include herbaceous weed control, brush management, prescribed burning, and mechanical disturbances to create desirable migratory bird habitat, control trees and brush, and/or control other undesirable vegetation annually within the flooded areas ONLY. Disking will be completed on at least 25 percent of the flooded or saturated areas AND will be completed no fewer than two times in three years. Disking will be completed January 1 through April 1 and/or after July 15 through August 15 OR after drawdowns are complete and before reflooding begins for wetland with water control structures. Disking will be completed to a depth appropriate to achieve the desired response. Practices 644 and 645 will not be paid for on the same acres in the same year. This practice is not eligible on rangeland.
