US States and Te	138	Organic Transition CAP	Conservation Plan Supporting Organic Transition

Cost Data

Scenario Description:		Development of a 138 Conservation Plan Supporting Organic Transition Conservation Activity Plan CAP.			
Natural Resource Concern:	Soil Erosion, Water Quality, Plant Condition, and other identified natural resource concerns.				
Resource Setting:	Agricultural operation where producer will transition from conventional to organic to meet USDA National Organic Program (NOP) requirements. No qualified TSP within 300 miles.				
Before Practice Situation:	Agricultural operation currently managed using traditional and conventional methods for farming and/or ranching. The producer currently manages operation based upon personal knowledge, or other local criteria. Producer is interested in transitioning part or all of the management unit to meet national USDA requirements for certified operation. Producer is willing to collaborate with a certified TSP to develop a plan and collect/coordinate data recording to monitor per requirements of plan.				
After Practice Situation:	After EQIP contract approval, participant has obtained services from a certified TSP to develop the "Conservation Plan Supporting Organic Transition" conservation activity plan. The CAP criteria requires the plan to meet quality criteria for applicable resource concerns and provides for opportunities to implement a system of conservation practices which assist the producer to transition from conventional farming or ranching to an organic production system. The CAP plan will include conservation practices which address related resource concerns. CAP meets the basic quality criteria for the 138 plan as cited in the NRCS Field Office Technical Guide.				
Associated Practices:	Refer to the NRCS Plan Criteria for conservation practices associated with operations transitioning to organic certification and typically needed to address identified natural resource concerns.				
Geographic Area:	US States and Territories				
Unit for Cost Estimate:	No				
Practice Life (Years):	1				
Discount Rate (%/Year):	0%				Cost/Unit
Materials					\$0.00
Not Applicable					
Equipment/Installation					\$0.00
Not Applicable					
Labor					\$3,373.00
Labor provided by a certified Technical Service Provider for development of the CAP plan. Specific estimated costs as follows:					
	Name of Item (Data Source N	Unit	Cost/Unit	Number	Item Cost
	CAP Labor, conservation	Hour	\$51	49	\$2,499
	Transportation	Mile	\$0.56	600	\$336
	Lodging	Each	\$77	4	\$308
	CAP Labor, per diem	Each	\$46	5	\$230
	Total:				\$3,373
Mobilization					\$0.00
Not Applicable					
Operation & Maintenance (Annual)					\$0.00
Not Applicable					
Acquisition of Technical Knowledge					\$0.00
Not Applicable					
Forgone Income (Annual)					\$0.00
Not Applicable					
Risk					\$0.00
Not Applicable					
Administration & Permit Costs					\$0.00
Not Applicable					
Total Cost Estimate:					\$3,373.00
