US States and Territories	142	Fish-Wildlife CAP	Fish & Wildlife Habitat Management CAP

Cost Data

Scenario Description:		Development of a 142 Fish and Wildlife Habitat Management Conservation Activity Plan CAP.			
Natural Resource Concern:	Fish and Wildlife, and other applicable resource concerns on an agricultural operation.				
Resource Setting:	Various on-farm land uses				
Before Practice Situation:	Agricultural currently producer has no plan or knowledge of development or management of fish and/or wildlife habitat. The producer does not currently manage or enhance habitat to promote opportunities for fish and/or habitat. Within existing land uses, producer is interested in management of land or for establishment of new habitat for benefit of appropriate fish or wildlife species.				
After Practice Situation:	After EQIP contract approval, participant has obtained services from a certified TSP for develop of the "Fish and Wildlife Management" conservation activity plan. The CAP criteria requires the plan to meet quality criteria for the primary fish/wildlife habitat resource concern and other applicable resource concerns and provides for opportunities to improve, restore, or enhance habitat that supports native and/or managed species. The CAP plan may include recommendations for associated conservation practices which address other related resource concerns. CAP meets the basic quality criteria for the 142 plan as cited in the NRCS Field Office Technical Guide.				
Associated Practices:	Applicable conservation practices cited in the CAP criteria and NRCS Field Office Technical Guide.				
Geographic Area:	US States and Territories
