FIELD OFFICE TECHNICAL GUIDE

LOUISIANA NOTICE 450-220

The Louisiana Conservation Practice Physical Effects (CPPE) has been updated and is now available in the Louisiana eFOTG in Section V under Conservation Practice Physical Effects.

Conservation Practice Physical Effects (CPPE), define how specific practices either positively or negatively affect the resource problems identified. Using CPPE, appropriate alternative practices can be identified and included in the plan as appropriate, to address site specific problems. The spreadsheet can be downloaded and localized as necessary to accommodate local site conditions.

Questions and/or comments regarding this information should be addressed to Steve Carmichael, State Resource Conservationist, at (318) 473-7774.
