MASSACHUSETTS TECHNICAL GUIDE NOTICE NO. MA-245

TO: All holders of Field Office Technical Guide, Section IV

Purpose: This notice transmits 2 new standards and 2 new specification guides.

- **Atmospheric Resource Quality Management (370)** This new standard will be used for the greenhouse building efficiency improvement practices. The specific requirements for each of the greenhouse practices are contained in the new Specification Guides.
- **Renewable Energy Production (716)** This new interim standard contains the criteria for new renewable energy practices.
- **Specification Guides for Atmospheric Resource Quality Management.** These new specification guides contain the specific design and installation requirements for implementing the greenhouse building efficiency improvement practices listed in the 370 standard. Note that two additional specification guides listed in the standard will be issued soon.

**Greenhouse Energy/Shade Screens**

**Greenhouse HAF System**

**Filing Instructions.** Insert this notice in front of Section I of the Field Office Technical Guide (FOTG). Replace the existing index located in front of Section IV with the revised index (5/5/09) provided with this notice. File the new conservation practice standards and specification guides in Section IV. The new standards and specification guides have been posted to the Electronic FOTG (eFOTG).
