

List of Somerset County, southern part, map units that meet the criteria for ME-CR1, question 3.b. when considering soil at APE.

Soils derived from fine sand, sand, gravelly sand or gravel:

Symbol	Map Unit Name
AaB	Adams loamy sand, 0 to 8 percent slopes
AaC*	Adams loamy sand, 8 to 15 percent slopes
CnC*	Colton gravelly sandy loam, dark materials, 8 to 15 percent slopes
Dz	Dune land
MbB	Madawaska fine sandy loam, 0 to 8 percent slopes
Sk	Skowhegan loamy fine sand
StB	Stetson fine sandy loam, 0 to 8 percent slopes

Alluvial Soils

Symbol	Map Unit Name
Ha	Hadley silt loam
Wn	Winooski silt loam

*Only the areas that have less than 10% slopes meet the criteria.

Notes: Map units not listed may have inclusions of these soils that meet the criteria.

Sandy ad hoc or spot symbols indicate areas too small to map that may meet the criteria.
