

ANDROSCOGGIN AND SAGADAHOC COUNTIES
CULTURAL RESOURCES - SOIL ASSESSMENT TOOL

This legend is a listing of all soil map units mapped in the counties which meet the soil criteria under 3.b. on the Preliminary Cultural Resources Review Worksheet (ME-CR-1).

NOTES

- **Glaciofluvial materials.**
- **Alluvial materials.**
- The C slope (8-15%) map units have areas that are both less than 10% and greater than 10% slopes.
- Be aware of the fact that all soil map units may have inclusions of these types of soils that were too small to map, yet still meet the soil criteria in 3.b.
- Also, be aware of small ad hoc symbols for sand spots and gravel spots that are surrounded by soils that do not meet the soil criteria.
