**TECHNICAL GUIDE
NOTICE #254 (electronic)**

Purpose: To transmit information regarding the electronic NRCS Field Office Technical Guide (eFOTG).

Effective Date: This notice is effective upon receipt.

Notice of Changes

SECTION I. General References

Water Quality Monitoring Activities

Technical guidance to support edge-of-field water quality monitoring has been developed by NRCS. This guidance, in part, was based on lessons learned during implementation of Interim Conservation Practice Standard Code 799, Monitoring and Evaluation. This conservation practice standard is no longer used. The new technical guidance for edge-of-field water quality monitoring is now found in two different activities as follows:

- Conservation Activity 201 – Edge-of-Field Water Quality Monitoring – Data Collection and Evaluation;
- Conservation Activity 202 – Edge-of-Field Water Quality Monitoring – System Installation

Technical questions regarding these Conservation Activities should be addressed to Ruth Shaffer, Water Quality Specialist, at (517) 324-5239.

Questions regarding eFOTG content management should be directed to Ruth Shaffer, Water Quality Specialist, at (517) 324-5239.
