MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 383

The following new and revised Missouri standards and specifications have been posted on the Missouri eFOTG:

Brush Management (314)
Closure of Waste Impoundments (360)
Forage Harvest Management (511)
Irrigation Water Conveyance (430-DD)
Pest Management (595)
Surface Roughening (609)

Brush Management (314), Closure of Waste Impoundments (360) and Surface Roughening (609) are new Missouri Standards. Tables 2-7 have been added to Irrigation Water Conveyance (430-DD). Vertical bars in the margins indicate paragraphs with significant changes made to Pest Management (595). Forage Harvest Management had no major changes.

Also effective with this transmittal, the following practice standards are cancelled and have been removed from the eFOTG because they have been withdrawn as National Conservation Practices.

Dam, Floodwater Retarding (402)
Dam, Multi-Purpose (349)
Irrigation Pit (552A)
Pond Sealing or Lining, Asphalt-Sealed Fabric Liner (521E)
Pond Sealing or Lining, Cationic Emulsion-Waterborne Sealant (521D)
Sinkhole Treatment (725) Interim
Vegetative Barriers (601) Interim

Vertical Drain (630) is available for use when providing an outlet for drainage water into karst features, sinkholes.

The State Office will maintain archived copies of the revised or canceled standards. Please contact the Field Technical Services Staff in Columbia for additional copies or any questions regarding the updated materials.

A handwritten signature in black ink that reads "Roger A. Hansen".
