MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 413

The following revised and new interim Missouri standards and specifications have been posted on the Missouri eFOTG. Replaced standards will be archived in Section I of the eFOTG under the appropriate year the standard was revised.

Residue and Tillage Management, No Till / Strip Till / Direct Seed (329)
Residue and Tillage Management, Seasonal (344)
Residue and Tillage Management, Mulch Till (345)
Residue and Tillage Management, Ridge Till (346)
Agrichemical Mixing Facility (702 Interim)

The *Residue and Tillage Management* standards and specifications are major revisions of existing standards. Changes to the documents are shown in blue-colored font. Please note the practice code has changed for three of these standards and specifications.

Agrichemical Mixing Facility (702 Interim) is a new interim standard and specification to allow the installation of an environmentally safe site for on-farm chemical filling, mixing, and rinsing activities.

If you have any questions regarding the material in this transmittal, contact Ron Miller, Conservation Agronomist, Columbia, Missouri.

A handwritten signature in black ink that reads "Roger A. Hansen".

ROGER A. HANSEN
