MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 427

The following new and revised Missouri standards and statements of work (SOW) have been posted on the Missouri eFOTG. The revised practice SOWS are located in Section IV, under the related Conservation Practice.

*Irrigation System, Sprinkler (442) – standard and statement of work*  
*Roof Runoff Structure (558) – standard, construction specification and statement of work*  
*Heavy Use Area Protection (561) – standard and statement of work*

*Roof Runoff Structure (558)* is a new state standard covering the collection and transport of roof runoff. *Irrigation System, Sprinkler (442)* is a revised standard with considerable expansion of the Criteria section and the addition of a Considerations section.

*Heavy Use Area Protection (561)* is a revised standard and is no longer applicable to stream crossings, refer to conservation practice standard Stream Crossing (578) for that purpose.

Revised standards will be archived in Section I of the eFOTG under the appropriate year that the standard was revised.

Field offices should use SOWs for guidance on practice design, installation and documentation. If you have any questions regarding material in this transmittal, contact Marty Comstock, Agricultural Engineer, Columbia, Missouri.

A handwritten signature in black ink that reads "Roger A. Hansen".
